"MECCA" OINTMENT

Will the Act Function?

The people of Alberta are entitled to judge for them the unfairness and injustice of The Reduction and Settle of Debts Act. This is the first of a series of short states concerning the Act, and its effect on you.

oncerning the Act, and its effect on you.

Will the Act function? Be it just or unjust, will it work?

There are cases pending in the Courts in which the question of
the validity of the Act is raised. Until the decision of the
courts is rendered, it is natural that lending companies can
to the expected in the meanline to prejudict such the rights.

Companies have been and are still prepared, regardless of what
the decision of the Courts may be, to enter upon negotiations
and explore all avenues in an effigt to arrive at arrangements
art to debtor and creditor, a courte which was recently folowed by companies doing business in the Province of
sakatcheware.

Debtors should think over their position, and the doubtful security the Act might provide, before brushing aside the under-toned the provide the second to the second to the who are not debtors should think what shirt position will be in a community where promises are lightly cast aside. If you can not trust your neighbor—if your neighbor cannot trust you—what becomes of security and the basis upon which business and all other human relationships rest?

This statement is one of a series written by The Mortgage Loans Association of the Province of Alberta. The Association is com-posed of 34 member companies. It represents hundreds of theu-sands of small investments by typical Canadians, Its leass to citizens of Alberta amount to some forty-free million dollars.

The 1937 Ford V-8

The ear, according to those who have previewed it at Ford dealer meetings in Windsor and Detroit recently, is the most beautiful Ford ever built. The interior reveals the same meticulous attention to details

The treatment is modern. Up-holstery is pillowed, with wide pleats. Seats are wide, deep and soft-cushioned. The in-strument panel is grained, with strument panel le grained, with the dials and engine controls in front of the driver. Starter button is on the dash, the hand reacher of Piano, Vocal, Thenry panel, out of the way of front seat passengers.

From a mechanical standpoint the most important development in the new Ford is the 90 hp. V-8 engine. Although new to this continent, it has been built in England and France for more than a year No.2—838 a.m.

been built in Eingland and France for more than a year for Ford cars designed for the European market. There it has been an outstanding success. Improvements have been made in the 88 h.p. engine. En-gine heat control is substantial-timproved by the new celling system. The two water pumps are of higher circulating ca-pacity and are located at the bottom of the cylinder blocks. blocks. They are automatically lubricated and self-sealing.
The engines are cushioned at four points in rubber.

Spare wheel and tire are car

ried inside in all body types. The new body designs permit unusually roomy luggage com-
